

Introduction

What a year 2016 was for the unexpected, with Brexit, Trump and the recent 'No' vote in the Italian Constitutional Referendum. Even in the IP industry we have seen further moves towards ratification of the Unitary Patent and the formation of the UPC.

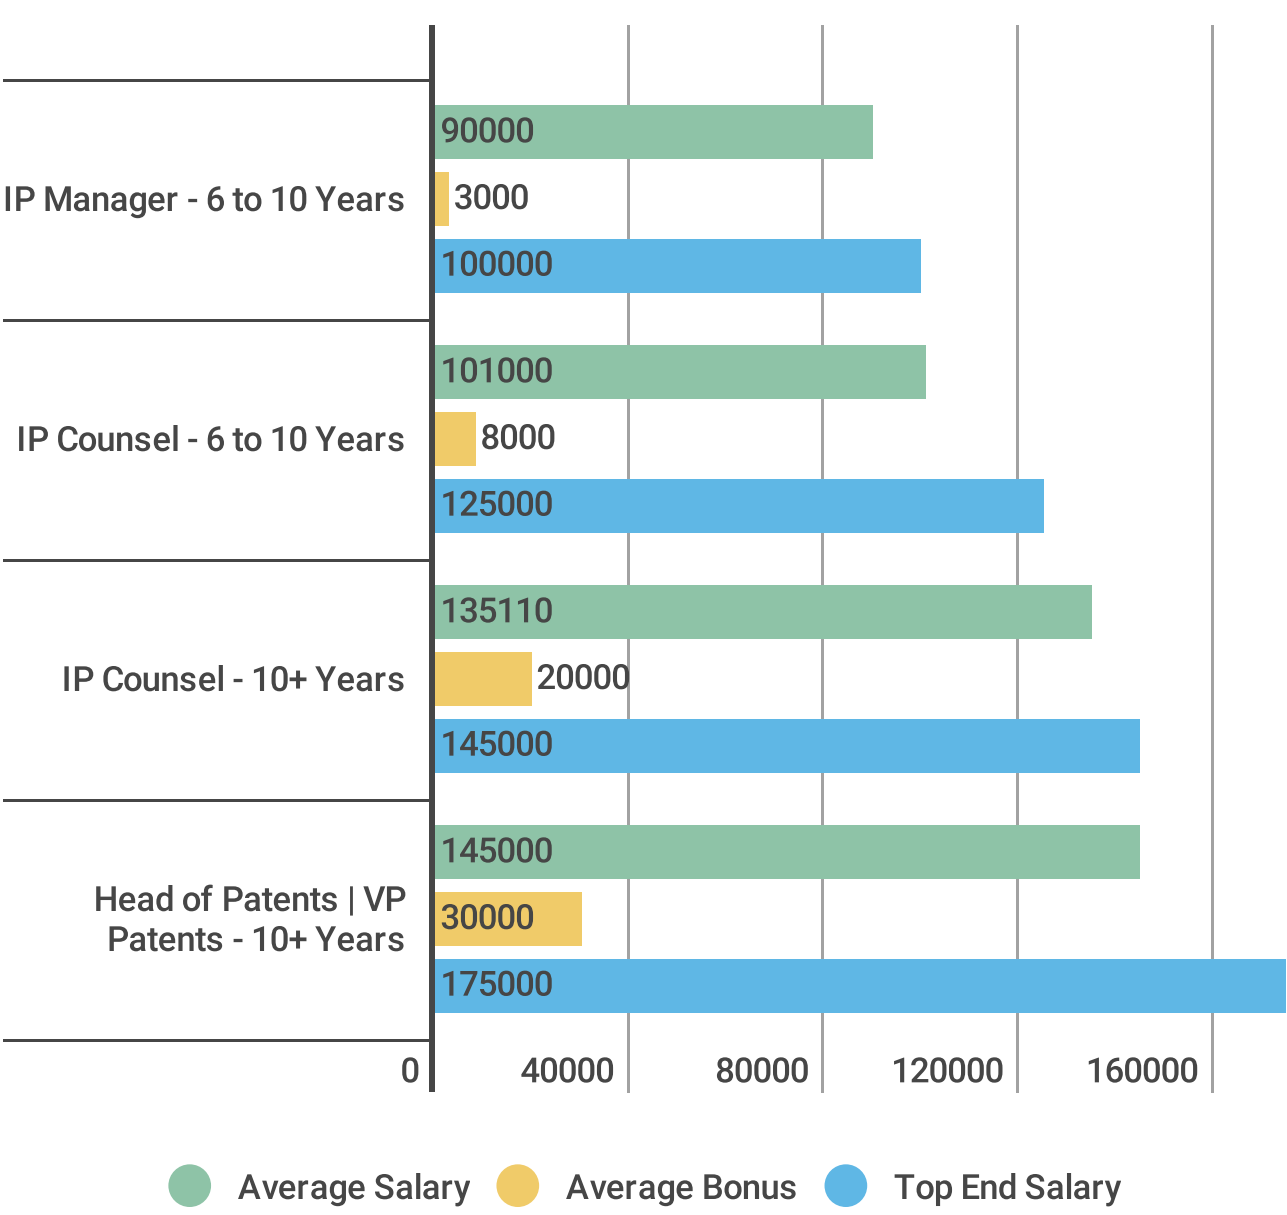

We are delighted to be producing our second Salary Survey for the IP industry.

We have released a number of other reports across Europe and are pleased to share our findings on Austria today.

This report is based on a small sample of data for the Austrian market and only covers Industry and In-house positions. Thank you to everyone that took part.

To sign up for our newsletter and ensure you are contacted for the 2017 version of this survey please email your details to ip@caseltonclark.co.uk.

Patent Salary | Industry

Benefits | Industry

78%

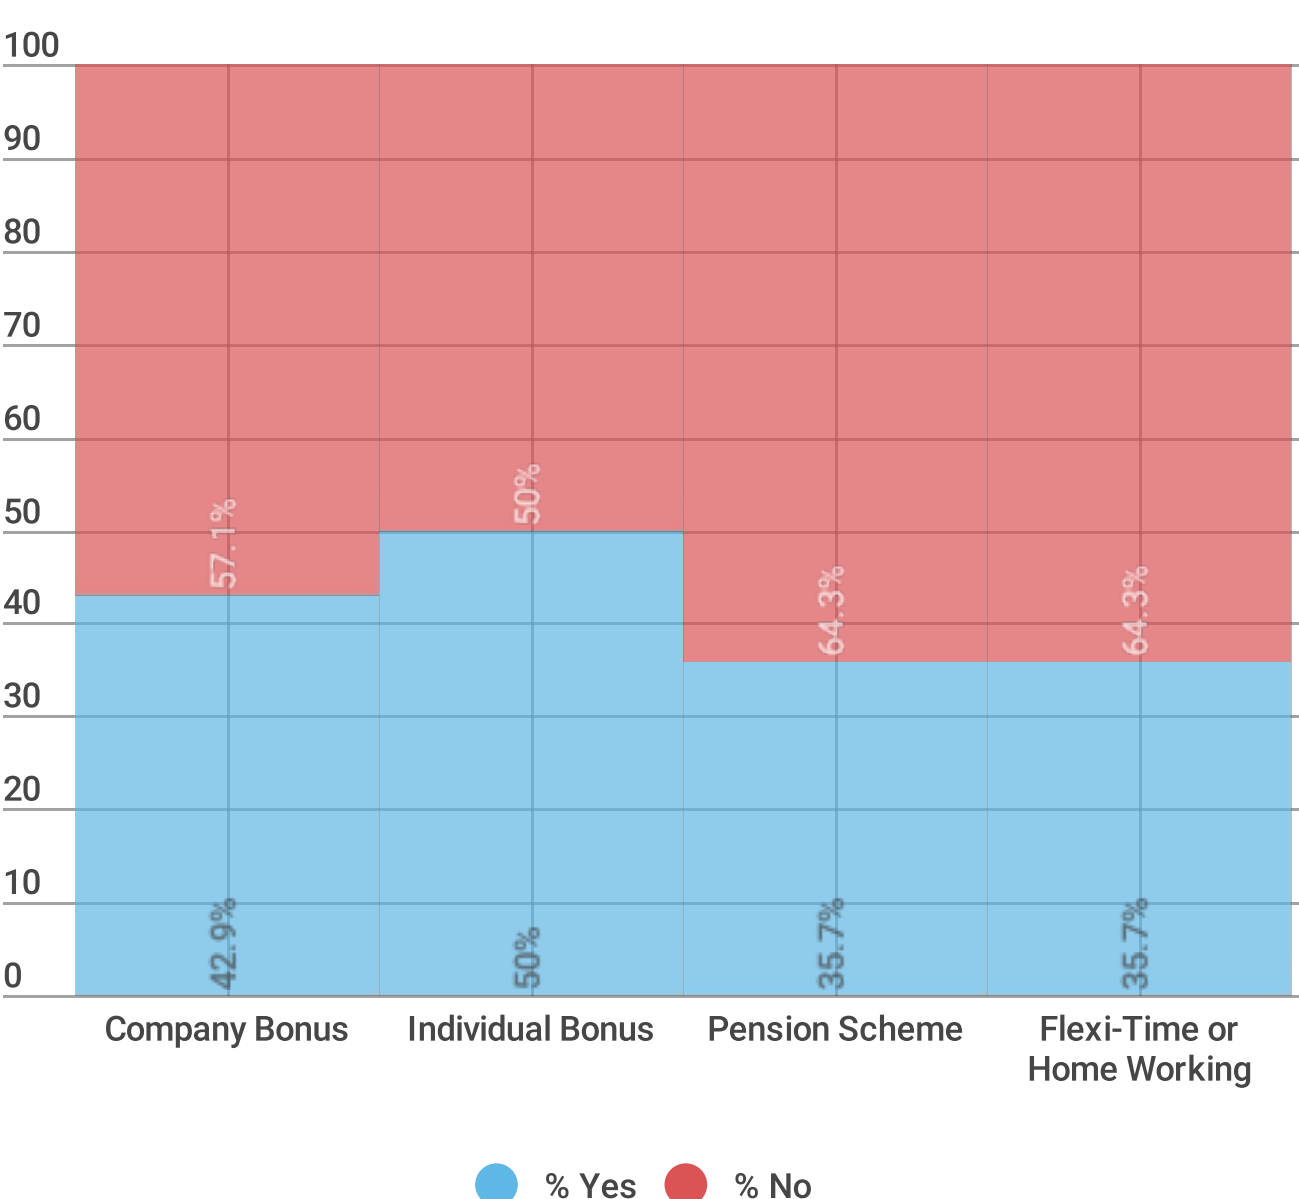

Expect to receive an individual bonus this year

71%

Expect to receive a company bonus this year

The below graph shows the percentage number of people that receive each benefit.

More Information

We'd love to discuss the salary survey, and what it means for your career or for your business, in more detail.

If you'd like to arrange a conversation or a meeting please contact Stephen Gill, the head of our IP practice.
